DHESIKA P.M

+91 6369535634 | pmyadhesh@gmail.com | LinkedIn: pm-dhesika-864410294 | LeetCode: dhesika_24 | Github: Dhesika-24

Education

KPR Institute of Engineering And Technology - Coimbatore **2023-2027**

B.E in Electronics and Communication Engineering. **CGPA : 7.5**

Minors in Software Development Engineering. **2024 - 2027**

Senthil Matriculation Higher Secondary school - Dharmapuri **2021-2023**

Higher Secondary Education. **Score:77%**

SKILLS

Languages: Java, Javascript, Python.

Tools & Technologies: MySQL, GitHub, Eclipse IDE, Next.js.

Frameworks: PowerBi, Scikit-Learn, Matplotlib.

Experience

IOT and PCB Design-Coimbatore [18.01.2025 to 02.02.2025]

Built and tested embedded systems using microcontrollers and sensor interfaces, focusing on real-time data acquisition.Designed and analyzed PCB layouts, improving understanding of circuit optimization and hardware efficiency.

Projects

Drone-Based Image Processing

- Developed a system integrating drone technology with optical, infrared and radar sensors to deliver real-time surveillance and enhance miltary reconnaissance capabilities.
- Designed data fusion techniques to combine inputs from multiple sensors, improving detection accuracy under varying environmental conditions.

Offline Lora based weather monitoring system

- Real-time monitoring of soil moisture, humidity, and pressure and helps farmers optimize irrigation and crop management.
- Data-driven decisions to increase crop yield and widely used in precision agriculture and wireless sensor networks

Achievements

Special Mention Prize, Hackathon TNWISE, Kumaraguru College of Technology (₹10,000 Award)

1st Prize in Hackathon at Coimbatore Institute of Technology.

1st Prize in DIGIAVNYA 2K25 -National Level Technical Symposium at RVS College of Engineering & Technology.

2nd prize in PitchMasters at Coimbatore Institute of Technology.
